GOAL
Myanmar is a society in which there is gender equality at all levels and in all sectors, and where human rights are respected, protected and fulfilled.

OVERALL OBJECTIVE
To achieve gender equality and social justice by transforming discriminatory systems and structures, norms and practices.

SPECIFIC KEY OBJECTIVES
To achieve the overall objective, key objectives include strengthening a system-based approach with the intention of furthering gender mainstreaming across institutions and to ensure sustainability, effectiveness and efficiency of the network itself.
Highlights of GEN Strategic Plan, 2019-2021

The year 2020 marks the mid-year of GEN Strategic Plan, 2019-2021 that focuses on the main goal to ensure that Myanmar is a society in which there is gender equality at all levels and in all sectors, and where human rights are respected, protected and fulfilled through facilitating the transformation of norms, systems, structures and practices. Despite the COVID-19 pandemic in Myanmar, GEN and its network members managed to implement many of the planned activities using innovative approaches via online trainings and meetings, talk shows, public campaigns, social media such as Facebook, etc.

One main highlight during 2020 is the mid-term review of the Strategic Plan, 2019-2021, which was organized in two parts: (i) review the achievements and challenges of GEN’s Strategic Plan with the Steering Committee members to discuss the new challenges to be considered for the remaining year including new operational areas to be considered for the revised Strategic Plan, 2022-2024; (ii) review and discuss the accomplishment and challenges of GEN in implementing the Strategic Plan, 2019-2021 with GEN members. Other highlights of GEN during 2020 include the strengthening of GEN as a network, as much efforts had been undertaken to engage an external consultant to assess GEN’s work and to suggest ways to improve GEN as a network, including reforming of the Steering Committee. The report was shared with the members during the yearly Member Assembly of 2020 to brainstorm and obtain concurrence of the members on agreed action. GEN’s achievements include the development and adoption of many significant policies to contribute to GEN as a strengthened network. These policies include Safeguarding Policy, Whistleblowing Policy, Gender Equality Policy, Complaint and Feedback Management Policy and Communications Policy. GEN is also forward looking about sustainability of GEN and has already developed a “Sustainability Index” to measure the possibility of sustaining GEN’s activities as a network in the years to come.
Message from Director

With the global COVID-19 pandemic that invariably affected Myanmar starting in late February 2020, this year has been the most challenging year for GEN as with many other organizations and networks. GEN took the challenge as an opportunity to expand its coverage to a wider audience nationwide through increased engagement with social media and other innovative channels of communication such as online meetings. GEN initiated COVID-19 response activities to protect the vulnerable population and to prevent amplifying effects including (i) increasing public awareness on COVID-19 through social media, online live panel discussions, online interviews, and IEC materials shared online, and (ii) distribution of COVID-19 protective items through partnership with stakeholders, especially the Department of Social Welfare and through GEN’s members to reach the most vulnerable population. GEN’s trademark being the “White Ribbon” campaign as part of the annual celebration of the 16 Days of Activism event promoting the theme “Prevent Violence Against Women by the Law” was celebrated through the use of social media as well as traditional media tools such as television and radio that attracted millions of viewers and participants. The year 2020 also marks the significant reform of GEN that aim to strengthen GEN through the mid-term review of the GEN Strategic Plan 2019-2021; preparation for the development of new Strategic Plan, 2022-2024 and further strengthening through development and adoption of many new internal policies to guide GEN CU and GEN as a network.

I wish to take this opportunity to thank each and every member of CU staff, Steering Committee members and GEN members for the excellent achievements. Last, but not the least, I wish to thank all the donors for your valuable technical and financial support and your continued interest in advancing gender equality and women empowerment in Myanmar.

May Sabe Phyu,
Director,
Gender Equality Network
Message from the Co-Chairs

As women leaders eager to promote gender equality and women’s rights in Myanmar, we are most honored to serve as Co-Chairs in the Steering Committee of GEN on a voluntary basis, while we hold respective positions in our own organizations. The year 2020 has been remarkable but somewhat burdensome as all sectors in Myanmar needed to coordinate and cooperate to control and prevent COVID-19, including GEN that worked tirelessly to provide necessary support in terms of donating preventive items and developing gender sensitive messages in relation to COVID-19 prevention. It has been most encouraging to witness the accomplishment of GEN even during the COVID-19 pandemic which proved that GEN is truly dynamic and flexible to adjust to the New Normal environment. We are also very proud to witness many achievements of GEN through the dedications and commitments of GEN as a network, having demonstrated the use of innovative strategies to implement planned activities. We are also proud to be part of GEN during the transformative stage for GEN to become a more strengthened network to serve the needs of members more effectively and to ensure that GEN is truly a member-driven network.

As the year comes to an end, we wish to extend our deepest appreciation and gratefulness to all GEN members for the confidence they had shown in electing us and the continuous support they provided to the network. We also wish to thank the staff of GEN Coordination Unit for their endless support extended to us, as Co-Chairs of the Steering Committee.
